Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 31-40, drawn to a method for layout of a document, classified in class 707, subclass 517.
 - II. Claims 1-11, 15-25, and 29, drawn to a method for computer graphic manipulation process, classified in class 345, subclass 666.
 - II. Claims 12-14, 26-28, and 30, drawn to the editing and controlling the object's size, classified in class 345, subclass 665.
2. Inventions I, II, and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed require neither the particulars of the subcombination as claimed because the layout of a document does not require the rendering of the object based on the size of the out put image, nor the editing and controlling object's size. The subcombination has separate utility such as graphic manipulation based on object, and editing the object's size.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2176

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, or Group III, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
